

February 3, 2017

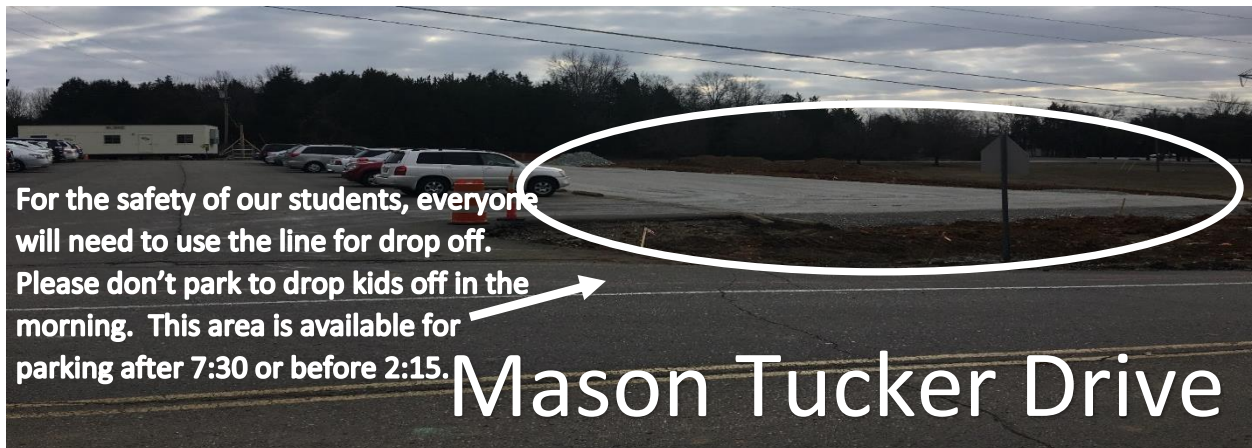

Dear Parents,

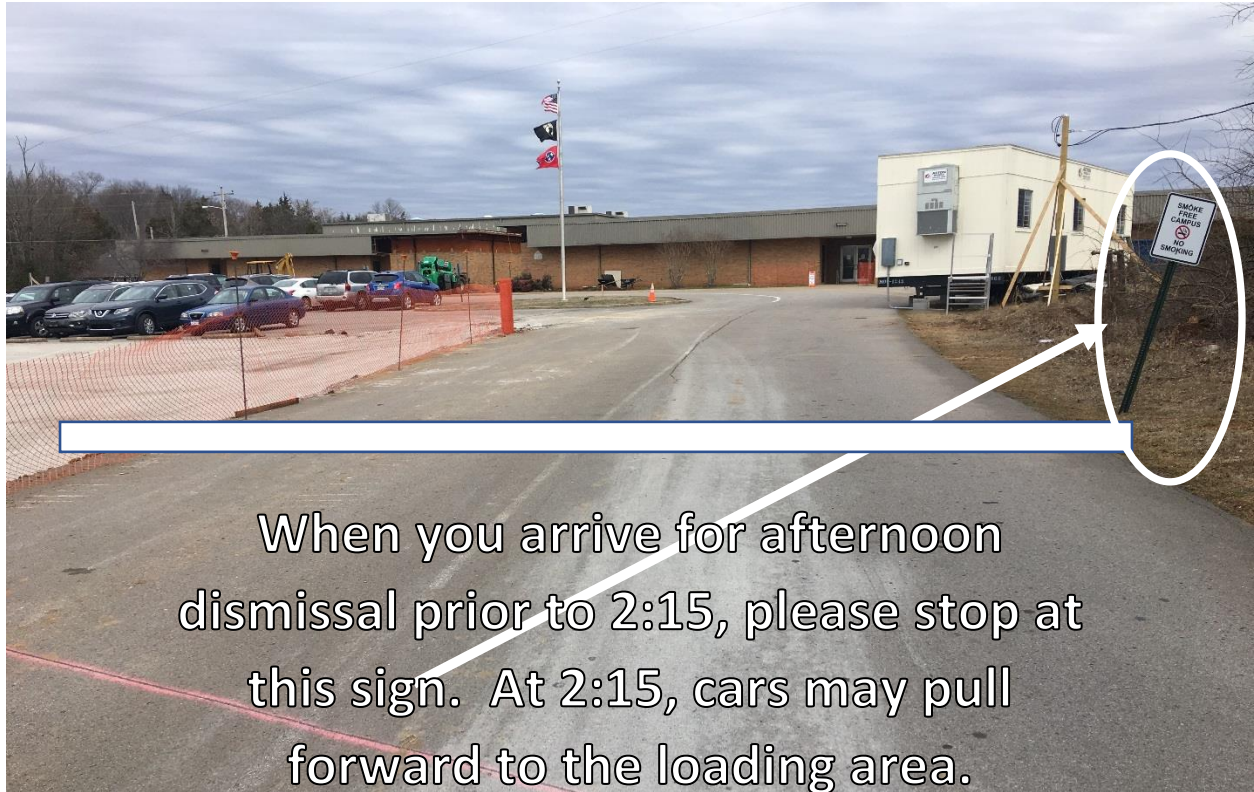

As we stated to you in a letter we sent in January, our traffic pattern would be changing due to construction. Monday, February 6, the traffic pattern change will be in effect. Below you will find pictures showing the changes.

Traffic will continue to enter off Todd Lane and travel the direction indicated in the picture.

There will be some parking located in the new gravel lot in front of the school. This will be used for guests and parents who are picking up or dropping off students after 7:30 or before 2:15. When eating lunch or volunteering you may also park in this lot.

When you arrive for afternoon dismissal prior to 2:15, please stop at this sign. At 2:15, cars may pull forward to the loading area.

Our number one priority is student safety. Therefore, I ask that you pay close attention while dropping off and picking up since students will be walking to and from the building.

Due to the change, expect some delays until everyone becomes accustom to the new traffic patterns. Also, afternoon pick-up will likely take longer simply due to the changes. We appreciate your patience during this time. This inconvenience is going to result in something great for our students.

Thank you,
